

# Technically Ingenious

With clear vision and determination, we ascribe to our conviction. We march ahead to break pigeonholes. We achieve customer and employee satisfaction. We guard your faith. We interpret technology according to your needs. We challenge ourselves to innovate for you. We strive to deliver proficiency at your desk. We explore possibilities to make them realities. We dream around you. It takes a little more than conviction to make these dreams true. We do it. Some call us path-breakers, some different. We like to call ourselves Technically Ingenious.

We are **DATA Infosys**.

### Chairman's Message

Benchmarking quality standards and best practices in trade are some of the most important differentiators adopted by Data Group to gain an edge in the market. We have achieved customer and employee satisfaction, as well as built the next level of business leadership by riding on quality and process excellence. From a modest beginning to towering success, Data Group has passed through many phases in attaining excellence. We always believe in giving value for money to our customers, and never emphasise on short term gains. For us, customers are our friends. We are committed to serve the society with quality products, following ethical business practices and engaging a dedicated professional team to take business relations all over world.

Babu Lal Data

## About Us

In 1999, a company dared to dream in the then IT sleepy city, Jaipur. A vision was directed by commitment and chased with conviction and hard work. DATA Infosys was conceived. An ISO-9001 company, DATA Infosys Limited (DIL) is a pioneer and India's leading IT company addressing all needs of today's global environment. DIL is part of the DATA Group of Industries that has interests in various lines of businesses. Being among India's top 8 ISPs (as on April 2009) and with an employee force of over 500 people, DIL is serving a huge database of more than 1 million happy and satisfied technology users in India. Moreover, DATA Infosys also accepts the accountability it shares as a responsible contributor to the society. DIL's 15,000 sq ft environment friendly office corresponds to this thought of the organisation.

DIL is an award-winning solution provider, focused on improving business collaboration and communication tools available to organisations. DATA Infosys masters the capacity of initiating and completing turnkey projects and has been redefining its own benchmarks. DIL has undertaken and successfully completed a wide range of turnkey projects in a variety of sectors. DIL has developed unique and leading edge products that are key components of high-performance and reliability for the customers. The Research and Development systems at DIL are based on global standards and serve large number of corporate customers globally. Additionally, DIL is in partnership with IT giants such as IBM, TCS, Microsoft, Sun and Redhat.

DIL has been crowned for its paramount and lucrative services to its clients in the IT sector. The organization stands strong in its commitment to the customers and clients. DATA Infosys has always endeavoured to be a catalyst in initiating sustainable social projects to help improve the lives of people and also realises the importance of opening up markets to check exploitation, improve health and the environment, and bridge the existing digital divide. DIL firmly believes that the introduction of higher dimensions of technology to meet customer needs is the key to growth.

According to Linux for You and PC Quest, Xgen Plus and SpamJadoo have been acknowledged as best email and anti-spam solutions for corporate and government sector. The National Informatics Centre Services Inc (NICSI), a Government of India enterprise, is recommending and reselling our email and anti-spam solutions to the government sector because of the high level proficiency and reliability of these products.

# Diverse Portfolio

Cementing associations all over India, DIL has partnered with several entities that have high credibility in their area of specialization. DIL is empanelled with the following agencies to grow together.

- **NICSI:** This Government of India enterprise is reselling DIL's developed solutions for email and anti-spam.
- **PFC:** Power Finance Corporation Limited, an initiative of Ministry of Power, Government of India, has empanelled DIL as the IT implementation agency for Accelerated Power Development & Reform Programme (APDRP).
- **Raj Comp:** A Government of Rajasthan Corporation, Raj Comp has selected DIL to execute their IT projects.
- **IBM:** SpamJadoo, the exceptional anti-spam and email privacy technology, is a part of IBM Express Portfolio. IBM Smart Business Platform has associated with SpamJadoo to ensure highest quality solutions for email security and privacy requirements.
- **Microsoft:** DATA Infosys is the Gold Partner of Microsoft, with multiple competencies for business management solutions and has executed several Microsoft dynamic implementation and software projects using Microsoft technologies.
- **SAP:** DATA Infosys is an authorised partner for providing innovative solutions using SAP.

“ I congratulate DATA Infosys Ltd. for developing such an advanced email system and wish them all the success in this venture. ”

Ajit K. Singh  
Secretary, Programme Implementation,  
Government of Rajasthan, Jaipur

# Innovation

“ The development group is one of the best we have found. From the design through testing and implementation phases, the developers have always been very responsive and always seem to know what we need. ”

Steven Sugg, Meritel, USA

“ The performance of X-band software is admirable and the offline support as and when required till now by their 24x7 support team is very prompt and excellent. Also, the response of other departments and management is very prompt, courteous and admirable. ”

Dr. A K Dasgupta, Indian Institute of Chemical Biology

“ We have worked with hundreds of vendors in virtually all areas of software development and email privacy. No other partner comes close to the degree of dedication, focus, execution, and partnership that DATA Infosys has consistently delivered. ”

Peter Kay, Flat Earth Ventures, USA

## Products

### XgenPlus: World's most advanced email server

XgenPlus is enterprise class virus-free and spam-free email server software. This advanced server software runs on Linux/Unix and supports all basic facilities like pop3, imap, web mail, mobile mail, FAX, SMS, scheduling, instant messenger, security and many more features. This communication solution delivers the widest range of deployment options, the richest user experience, and unprecedented information protection and control capabilities. XgenPlus helps to achieve better business outcomes while controlling the costs of deployment, administration, and compliances, while it efficiently manages message delivery, including: queuing, scheduling, connection management, data transfer, processing of deferrals, bounce generation, and tracking of delivery status.

### SpamJadoo: Anti-spam and email privacy technology

SpamJadoo is the only gateway-level anti-spam product that actively discourages spammers with an advanced ESP technology that spreads a privacy layer around the mailbox. This upshot takes spammers off the database and reduces the amount of spam targeted at the mailbox. Unlike other anti-spam products that check mail after receiving, SpamJadoo discourages spammers and results in lessening the server load, and consumption of internet bandwidth thereby, enhancing the performance.

### Xband: Bandwidth management and access control

Xband provides a mechanism that allows users on a closed network to gain rights to use network services as defined in the profile created for the particular user. It authenticates and empowers the users and administrator with a unique user ID and also formulates the bandwidth control. This module basically features on controlling the bandwidth requirements of the Network/Users. Xband also restricts the traffic on the basis of URLs, source & destination port, etc.

### Voltage: Power billing and revenue management solution

Voltage, the stress-free billing and revenue management system, offers complete solution for power utility consumer billing and revenue management needs. With emphasis on minute details and demands, Voltage provides solution in a very efficient manner making the work management absolutely stress free. The entire system is web based and can handle (a) Monthly billing (b) Spot billing (c) MIS reporting at each level (d) Control at each hierarchy level (e) Third party integration (f) Report generating tool (g) Payment processing offline and (h) Online payment gateway.

## E-Governance

- **Energy:** DIL is executing the spot billing project for Jaipur Vidyut Vitran Nigam Limited, Government of Rajasthan. The project includes design, development and implementation of application software for computerised on-spot bill generation. Providing services for operation of the system includes on-spot bill generation at the subdivision level as a daily activity, meter reading, generation of energy bills and distribution thereof on the spot. The project also includes system administration at each server level, i.e. discom and circle level. Also, DATA Infosys has well established, accelerated, and no-current-complaint-management systems for the State Governments of Rajasthan and Punjab.
- **National Parks:** DIL has its own portal, [www.rajasthanwildlife.com](http://www.rajasthanwildlife.com), though which services are provided to Rajasthan Forest Department. Through this portal, tourists have access to authentic and up-to-date information on Rajasthan wildlife. Through our online trip planner and booking engine, tourists can plan their visit and also purchase online entry tickets for Ranthambhor National Park, Sariska Tiger Reserve, Keoladeo Ghana National Park, etc. A desktop application has also been developed by DIL for the Department, which has been installed at the welcome counter of national parks for issuing boarding passes and tickets. In 2009, this project has been selected amongst India's best IT implementation projects in e-governance domain.
- **North Western Railways (NWR):** DIL is handling various projects of NWR on turnkey basis. These include providing internet services, network administration and maintenance at NWR headquarters. DATA Infosys also maintains Oracle-based web applications like ITAS and PRIME for the Department. The maintenance work includes updating database and performing day-to-day operations related to the application. All these operations are being carried out by a dedicated team of software & networking professionals deployed at the IT centre of the NWR Headquarters.
- **Tourism:** DIL has provided services to Department of Tourism, Government of Rajasthan, which includes designing, development and maintenance of their web portal. The web portal project includes hosting, maintenance and marketing of the portal. Networking, email solutions, application development and online e-payment gateway are also included in the project. DIL has created a 24x7 chat support for all visitors coming on the web portal and also enabled online bookings for RTDC hotels, which has gone a long way in promoting tourism in Rajasthan over the past 5 years.
- **Information Technology:** DIL has worked on the implementation of several key IT-based projects undertaken by the Department of Information Technology & Communication, Government of Rajasthan. DIL has signed a MoU with the GoR for the Jaipur Wi-Fi project. The company has developed the e-mail setup management system for all departments of the GoR. DIL has also worked on the E-Mitra citizen payment service and E-Sanchar project for pension beneficiaries, for the GoR. Hindi TTS, Software Dialler and a Data conversion tool was used for the E-Sanchar project to automatically call the pension beneficiaries for the release of their pension. The E-Sanchar project was also selected as winner by PCQUEST for 'Best IT Implementation with Maximum Social Impact' for the year 2009.

# E-Governance

- **Social Justice:** DIL has worked on the computerisation of entire operations and schemes for social justice. The company has worked for several institutions on key projects including online budget, SC sub-plan, hostels, residential schools for SC/ST/OBC and scholarship section.
- **Banking:** DIL's email management software, Xgenplus has been integrated with Spamjadoo (anti-spam, anti-virus and email privacy solution) in the online disaster recovery system for Reserve Bank of India, Mysore. The company is also providing customer service, domain registration and spam-free email service for State Bank of Bikaner & Jaipur and other nationalised banks.
- **Telecom:** DIL carried out the 'Call Center Management' services for the mobile and broadband customers of Bharat Sanchar Nigam Limited (BSNL) in Rajasthan, Punjab, Madhya Pradesh and Uttaranchal. It has also worked on the Material Management Software for BSNL.
- **Power:** DIL has worked on the facility management, network management, and a 24x7 online support with software development for Nuclear Power Corporation of India (NPCIL). Also, DIL is providing Internet, FMS, Call center, Software and many other services to the power utilities like JVVNL, JDVVNL, AVVNL, PSEB, etc.
- **Sports:** Taking the conviction for innovation ahead, DIL has recently signed an agreement with Rajasthan Cricket Association as their exclusive IT implementation agency for a period of four years.

Rajasthan bagged 2 projects out of a total of 11 for Best IT implementation at the 'All India level' for the year 2009. Both these projects have been proudly executed by DATA Infosys.

# Prudent Caretakers

## Board of Directors

### **Babu Lal Data, Chairman**

Babulal Data, brings with him a vast and realistic experience of 32 years, which steers the strategies and formulations of the Group. He was felicitated with the esteemed Bhamashah Award by the Governor of Rajasthan. He shoulders the responsibility of sales, and looks after the day-to-day operations of the entire oil division.

### **Dr Ajay Kumar Data, CEO & MD**

Dr Ajay Data, the techno-savvy leader of DATA Infosys Limited, pursued his MBA in Computer Sciences from Newport University, USA and PhD in Electronic Data Processing from Netherlands. Pursuing his knowledge growth further, he also holds a diploma course in 'System Analysis & Design' from Uptron University. Many honours were accredited to him for his contributions in the IT Industry. Shri Ram Vilas Paswan, Hon'ble Minister for Communications, felicitated him with the 'Certificate of Excellence' from Junior Chamber of Commerce, Jaipur, for his outstanding services and contributions. He received many laurels like the 'International Millennium Gold Star Award for Enriching Human Life and Outstanding Attainments' and 'Outstanding Young Person in Rajasthan' was awarded by the Indian Junior Chamber, Kota. He has also been an active member in the Prime Minister's delegation on two occasions and has been the president of TIE Rajasthan and EO Rajasthan.

### **Deepak Data, Director**

Deepak Data, a seasoned entrepreneur, has ensured steady growth through effective leadership and vision. A Post Graduate in Computer Science from Leeds Metropolitan University, United Kingdom, he has been felicitated as the 'Young Entrepreneur' award by the 'Keshav Navneet' and is also associated with organisations like YEO. An effective leader with broad vision, Mr Data has always envisaged steady growth while maintaining international quality standards and providing solutions in software, technical consulting, e-solutions and IT enabled services. His keen understanding of IT and Institution Building has enabled him to contribute to the policy formulation in many business houses.

### **Nitin Walia, Director**

Nitin Walia holds a rich experience of over 12 years in IT sector. An MBA with great business acumen, he works with an infectious zeal of a workaholic and has always propelled the company to achieve newer heights. It is his foresightedness that in spite of tough competition, DATA Infosys Limited remains the most trusted ISP brand in India. The stamp of his business acumen is visible in all the member units of the DATA Group. A person with many facets, he is also in the forefront of DATA Infosys' thrust as a National ISP and its many growth programmes. His intellectual and collaborative nature brings harmony among employees and helps in maintaining collaborative team environment within the organization. His expertise lies in converting innovations into actions.

### **M.L. Oswal, Director**

Mr. M.L.Oswal is an ex-government official. His 32 years of rich experience is an asset for DIL. He has worked for almost 26 years with India's biggest telecom giant, BSNL and headed the internet division. He is currently looking after execution and operation of various projects of the company and is also actively engaged in other group activities.

### **Mukesh Gupta, Director**

Mr. Mukesh Gupta is a Chartered Accountant and has a rich experience of over 12 years. He keeps a vigilant track of all financial needs of the organisation. He strongly believes that a business should be totally committed to quality, which leads to continuous improvements in the product portfolio.

“ The performance, features and the entire solution provided is excellent and support provided to us by their team and management is very prompt and admirable. ”

Reserve Bank of India, Mysore
