About JANETO

Web Development:
Your big ideas deserve equally exciting solutions. We work with multiple technologies to produce the most effective applications.

Mobile Development:
Your targets include Android & iOS users. We design and build smart apps that stand out and communicate with your services online.

E-commerce, Payment Gateway:
Online commerce is not limited to Amazon and E-bay. There's still a lot of space for independent online stores. We'll help you settle in!
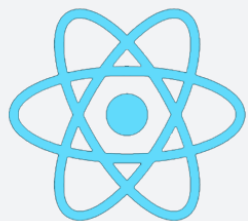

MVP, Startup Development
We not only provide the MVP with fast development but also build it to product. Let us help to seed your idea!
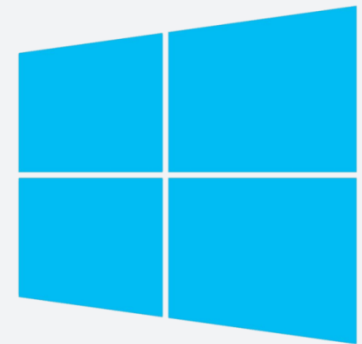

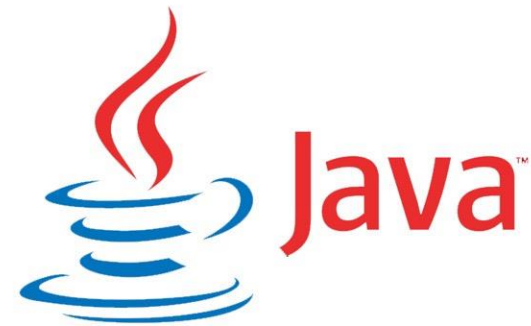

Technology Stack

Technology Stack

Technology Stack

# Technology Stack

- Jira, Gitlab, VisualSVN (internal usages)
