Managing Biobanking, Clinical Research & Testing Data using Spreadsheets?
# Switch to an Advanced SaaS LIMS

CloudLIMS
A Laboratory Information Management System

Complimentary Services

- Product Hosting, Maintenance & Backups
- Module Configuration
- Unlimited Training & Technical Support
- Legacy Data Migration
- Upgrade Assurance

Pay as you go!

Key Benefits

360° Traceability
Comprehensive features for managing laboratory operations

Zero Capex
No investment in IT infrastructure

Accessibility
Access, transact & track information from anywhere

Collaboration
Collaborate & share in real-time

Save Time
Save time on initial installation & upgrades

Security and Reliability

Highest Up-time
99.9% @365x24x7 availability

Foolproof Security
Multilevel security on SOC compliant IT infrastructure

No Data Loss
Automatic data backup

Comprehensive Compliance
Follows 21 CFR Part 11, HIPAA & CAP Accreditation guidelines

Test Results
Sample Reports
Patient Records
Storage Data

CloudLIMS
Empowering Labs

An ISO 9001:2015 Certified Software Company
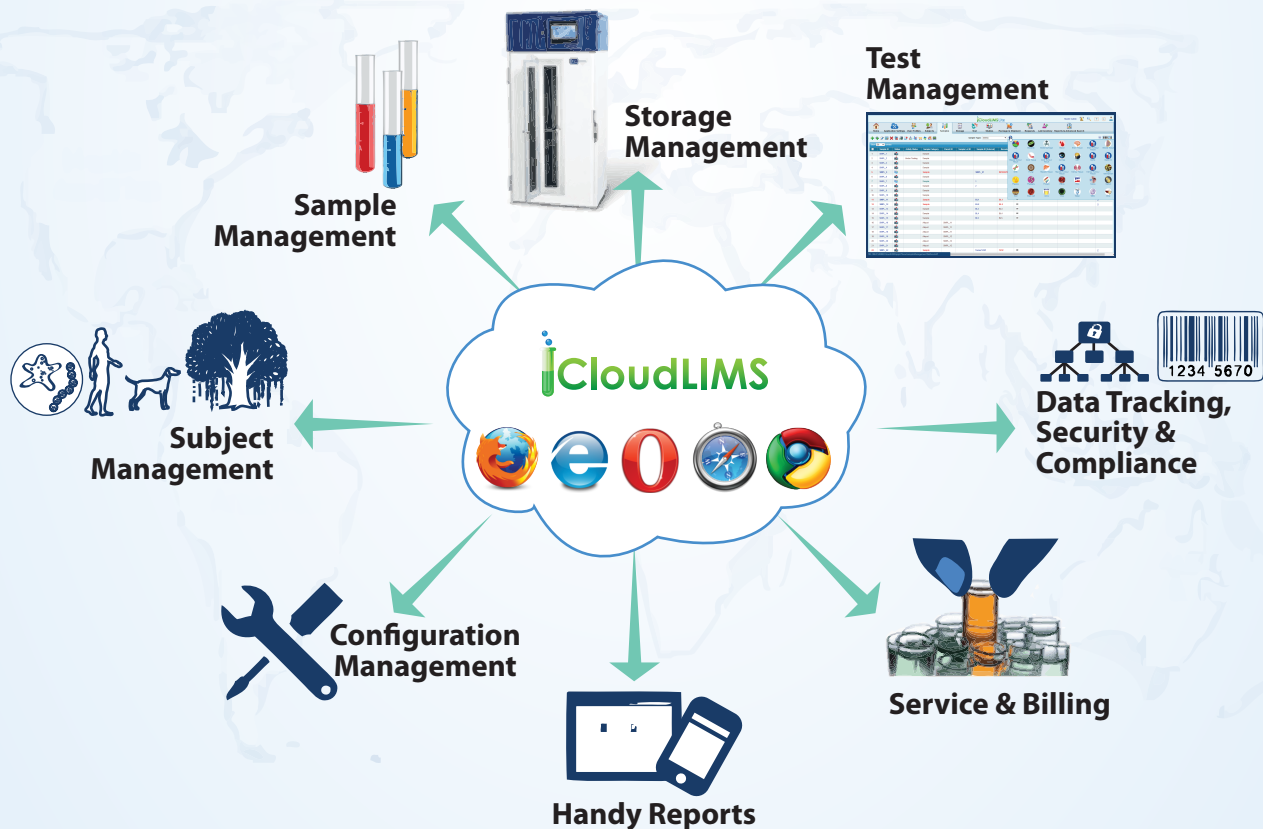

UCDAVIS
UNIVERSITY OF CALIFORNIA

"We are very pleased to use CloudLIMS for managing multi-lab work-flows involving the collection of several different types of samples. With CloudLIMS's enhanced user group management and the unique configuration module, we could accommodate diverse work flows of six different types of labs into one single product. The access level control helps us manage data integrity. The complimentary data migration services were a big plus for us. It took the onus of uploading all the data off our shoulders and enabled us to get started with CloudLIMS without dedicated staff. I recommend CloudLIMS to whoever needs a LIMS solution for the life sciences."

"With CloudLIMS, we were able to load our legacy data of 60,000 samples rapidly using the universal uploader. The uploader directly maps our existing data to the data fields in CloudLIMS. The data fields and our laboratory workflows were easy to configure, which allowed for a quick deployment!"

The University Of Sheffield.

A Complete Solution for Your Lab

- Sample Management
- Storage Management
- Test Management
- Data Tracking, Security & Compliance
- Service & Billing
- Handy Reports
- Configuration Management
- Subject Management
