TRANSFORMING NORMAL SCANNER INTO OMR SCANNER

DESIGN

PRINT

SCAN

Verificare is new age OMR Software that is capable of reading traditional OMR forms and plain paper OMR sheets with the same level of accuracy, we can PROUDLY confess, Verificare is the only software that is incorporating the advance technological tools such as, no need to design OMR template in word/excel/designing software, use inbuilt template designer to design professional OMR forms in few minutes. You can get a print of OMR form with normal office printer which can be scanned using a flatbed/ADF/MFP scanner. It reads at lightning speed maintaining 100% accuracy and can easily fetch data for forefront analysis.

- Inbuilt OMR sheet designing tool to create a variety of admission, examination, competitive and survey forms

- Comes with **Artificial Intelligence**

- **Anti-cheat detection**

- Reads data **10 times faster** (300 sheets/min) as compared to a normal OMR software

- Use any normal printer to print OMR sheets

- Use a normal scanner to scan OMR sheets and get the data in desired format

- **100% accurate** data is assured

- Hassle-free reading of scanned OMR sheets

- Easy to create complex OMR sheets

- Can crop photographs or signature from the OMR sheets

- Print and read 1D and 2D barcodes

- Reads OCR (Optical Character Recognition)

- Technical expertise isn't required to operate software

TEST ANALYTICS

HAVE YOU EVER THOUGHT HOW IT WOULD BE IF A STUDENT MAY KNOW ALL HIS WEAK AND STRONG POINTS JUST BY GLANCING THROUGH HIS RESULTS..!!

UNDOUBTEDLY..HE WILL BE ABLE TO MARK THOSE WEAKER AREAS AND IMPROVISE BY WORKING UPON IT.

To make this happen, we bring for you diagnostic software named Test Analytics that interprets the performance of the student meticulously. When the students attempt the test, they require an analytical approach to their results. At that very time, Test Analytics software comes into picture. With the help of TA, they can very easily recognize their flaws and strengths that will help them to enhance their performance.

This software yields a comprehensive report of the tests given by a student. It is collaborated with Verificare the OMR Software. This helps in attaining descriptive and graphical reports.

In a way, this is the perfect tool for assessing an individual's performance as insightful as it can.

TEST REPORT

SUBJECT WISE REPORT

INDIVIDUAL SUBJECT WISE REPORT

QUESTION PERCENTAGE REPORT

COMPARATIVE ANALYSIS WITH TOPPER

COMBINED TEST REPORT

- Creation of tests section wise and its retrieval as per your accordance
