

MACHINE VISION SOLUTIONS

pluganablay* Automation

GRIDBOTS TECHNOLOGIES

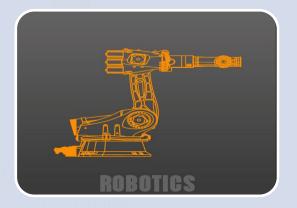

- 1) Founded in 2007, Headquarter in Ahmedabad, India
- 2) Leaders in Industrial Robotics and Machine Vision Systems
- 3) Recipient of many national and international awards including MIT and Indian Government for technological innovation
- 4) Recognized as "Champions of Change" by PMO.

ABOUT THE FOUNDER

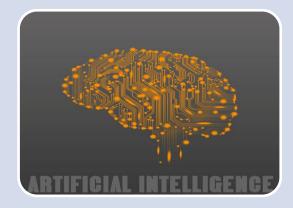

The founder of Gridbots is **Mr. Pulkit Gaur**, India's leading Robotic, Artificial Intelligence & Machine Learning expert. Some of his achievements are:

$\frac{1}{2}$	TED Fellow	2009
#/	IIM Ahmadabad – Govt. of India – Anveshan Gold Medal	2009
#/	Gold Medalist - DST Lockheed Martin -	2010
#//	Massachusetts Institute of Technology (MIT) – Innovator of the Year	2011
4/	Nasscom Top 8 Innovation Award	2011
H	Business world – Hottest Entrepreneur Award	2012
///	Rajiv Motwani (Google's Founder) Fellowship	2013
4/	Best Startup of Gujarat for Gridbots Technologies	2015
4/	Top 25 Technology Innovators of India (Govt .Of India – MSME)	2015
/4/)	"Champions of Change" Prime Minister's Office	2018

WHAT WE DO?

- 1. Robotic Arms
- 2. Autonomous Vehicles
 - 3. Robotic Packers
- 4. Robotic Sorters

High Speed Online

- 1. Inspection, Measurement & Verification
- 2. 3D Imaging
- 3. Track & Trace

a

Deep learning based

- 1. Classification systems,
- 2. Text mining system and
- 3. Autonomous guidance

Powerhouse in Machine Vision Solutions

Vision Solutions

S. No	Product Name	Description	Use Cases	
1	FabriCheck	Large Item – 2D inspection of size, print quality etc	PolyBags, Fabric etc	
0	Danalian		Tubas Cana Dattles	

Tubes, Caps, Bottles

PanaView MicroView

InspectIS

AutoTrack

Text Miner

zSCAN

Thermos

Glass Inspection

Track and Trace

3D Analysis System

Thermal Imaging

Systems

360 degree inspection system

OCR and OCV on large area

10 micro + inspection system

Single Camera Inspection

Vials

Machines

Tires

Float Glass, Bottles and

Tablets, Seed, Cartons

Seal Quality Inspection

Labels, Files, Lottery

Mattress

Tiles, Soaps, Blisters etc

Minerals, Biological

FabriCheck – Large Item Inspection Table

FABRI CHECK ROBOT BASED FULLY AUTOMATIC BAG INSPECTION SYSTEM

- 1) Inspect Item size upto 1200 by 800 mm
- 2) Single Side and Both Side Inspection Option
- 3) Items / Hour 1500
- 4) Defects Dimensions, Print and Texture related defects
- 5) Auto feed items to inspection table
- 6) Separate items into good and bad bin
- 7) HMI Intuitive, Modular and Easy to Use

PANAVIEW – 360 Degree Inspection System

- 1) Inspect Any items in 360 degree e.g. tubes, bottles, caps using 3 to 5 cameras
- 2) Items / Hour 40,000 to 60,000 parts
- 3) Defects Mould, Dimensions, Material, Product Label, Cosmetic defects
- 4) Online and Offline Modes
- 5) Rejects defective items
- 6) HMI Intuitive, Modular and Easy to Use

9

MicroVIEW – Al Enabled Microscope

- Inspect Any items of sizes 10 micron to 500 micron in 2D
- Auto Identify Count, Color, Transparency, Fluorescence, Height Measurement, Area, Aspect Ratio, Contamination analysis
- Servo based Rotary Table and XY Table Mode
- 4) HMI Intuitive, Modular and Easy to Use
- 5) Auto Report Generation as per client requirement

10

InspectIS – Single Camera Inspection

- Inspect Any items of sizes in 2D as per client requirements
- Defects Cosmetic,
 Dimensions, Material
 and Label Defects
- 3) Top/Side Mounted Cameras
- 4) Online & Offline Mode
- 5) Autoreject
- 6) HMI Intuitive, Modular and Easy to Use
- Auto Report
 Generation as per client requirement

GeometricCAM – Auto Dimensioning

- 1) Inspect Dimensions in 3D
- Sizes Measures Dimensions (L*B*H) 2500 mm by 2500 mm by 300 mm with 1 mm accuracy
- 3) Online & Offline Mode
- 4) HMI Intuitive, Modular and Easy to Use
- 5) Autorejection
- 6) Auto Report Generation as per client requirement

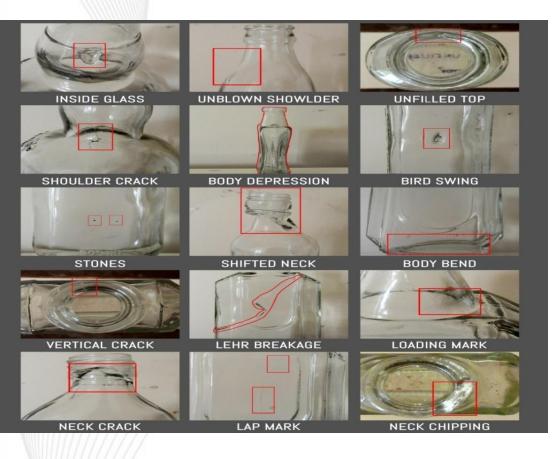

Float Glass Inspection

- 1) Inspect Float Glass at 20 meters / minute
- 2) Defects All cosmetic, furnace and roller defects
- 3) Top Mounted Camera System for Inspection
- 4) Online Directly mounted over the glass conveyor
- 5) Auto mark defective glass & send rejection signal to picker
- 6) HMI Intuitive, Modular and Easy to Use
- 7) Auto Report Generation as per client requirement

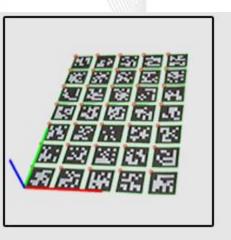

13

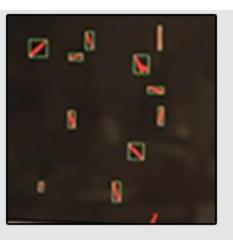

Glass Bottle Inspection

- High Speed Inspection of Multiple Defects in Float Glass, Solar Glass, Bottles, Tumblers.
- More than 25 defects of Glass can be detected.
- 3) 300 Bottle Per Minute.
- 4) Rejects defective bottles.
- 5) HMI Intuitive, Modular and Easy to Use.
- Auto Report Generation as per client requirement.

AutoTRACK

PATTERN TRACKING

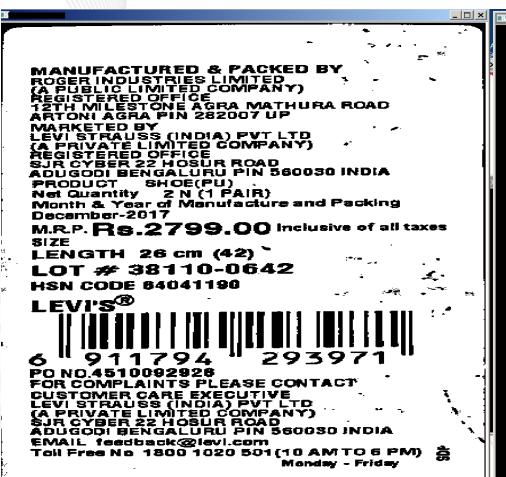

SEED COUNTING

OBJECT TRACKING

LOGO TRACKING

- 1) Track 3,000 objects / second
- 2) Read Rate 400 Hz
- Tracking Object Type 2D Marker Object Logo AR Marker Custom Shape, Active Markers.
- 4) Use Case Real time counting of Seeds/Tablets/Washers/Nuts/Bolts
- 5) HMI Intuitive, Modular and Easy to Use
- 6) Auto Report Generation as per client requirement

TextMiner – Al enabled text extraction

- 1) Large Scale OCR traditionally not possible in general machine vision systems
- E.g. Decode Lottery Machine Numbers, Shipping Labels Decoding, Number Plate, Handwritten text

3D Profile Scanning – zSCAN

- 1) Laser Based Profile Scanning System with 50 Micron Resolution 5000 Hz Scan Rate Use Case.
- 2) Weld Quality Inspection, Height Measurement, Part Quality & Profile, Presence / Absence, Black on Black Reading (tyres), Shiny Object reading (metal)

thermMOS – Seal Integrity Inspection

- High Speed Non Contact Induction Seal Integrity Inspection
- 2) Up-to 120 Bottles per Minute
- Feedback for Torque Control to Sealing Machine
- Detect issues such as under heating, over heating, missing or bent foil, damaged seal etc.
- 5) Automatic rejection of defective seals
