# ISHORE SOFTWARE

An Agile Product & Software Development Company

## PROJECTS IN PROGRESS

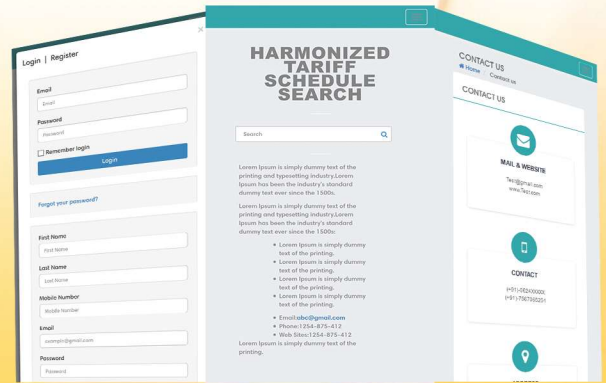

### Applicant Tracking System

An applicant tracking system (ATS) is a software application that enables the electronic handling of recruitment needs. An ATS can be implemented or accessed online on an enterprise or small business level, depending on the needs of the company

### Harmonized Tariff Schedule

The U.S., defines products using 10-digit codes in its Harmonized Tariff Schedule (HTS). Import codes are administered by the U.S. International Trade Commission (USITC). Harmonized System (HS) numbers are used to classify products for customs purposes. We are building HTS search an item/product and calculate duty rates.
