Affordable Cloud Accounting For You And Your Clients

Online accounting that puts your client's financials at your fingertips. Easy to use for your clients, connected to the banks and built in the cloud. Transform your practice with real-time access to what you need and when you need.

Acute is the perfect tool for a successful accounting practice. With unique time-saving accounting features, unlimited free users, access from any location, affordable pricing, and single package with all current and future modules included. Most important you can brand it with your practice logo and branding with our white label solution.

WHITE LABEL SOLUTION

Our unique full White Label solution lets you brand it with your practice logo and branding. This helps you to build client loyalty and increases your brand value.

Easy Accountax white label is not only limited to accounting portal but covers user guides, mobile app (both android and iOS), email communications as well as completely white labelled Registration and Login pages with your own domain name.

Easy white label comes free when you buy minimum of 10 licenses. Contact us today to see how your white label solution looks like and we will do it for free without any obligation.

YOUR PRACTICE. YOUR CLIENTS

Easy Accounttax is a powerful cloud accounting platform. It has everything your client needs (contacts, invoices & bills, expenses, auto bank feed & reconciliation, reporting, CRM) and everything that you need to run efficient practice like VAT returns, CIS returns, payroll, bulk reconciliation, audit trail and permission control.

Increase brand value

With our white label solution you can increase your brand value and add additional value to the services you provide to your clients.

Efficient practice

Increase your efficiency by doing more work in less time with the help of powerful tools and our apps.

Improve service level

With data flowing into the account daily you don't have to wait for them. You can plan your work more efficiently and invest free time in providing additional value added services to your clients.

Grow your practice

With improved efficiency you can take more clients onboard with same capacity. Easy Accounttax helps you grow your team and clients at the same time helps you maintain service level.

With Easy our staff can now handle more clients, this means increased profitability.

Development Road map for 2016-2017

HOW Easy Accountax WORKS FOR YOU ?

We have made switching simple and smooth. Switch now and start getting advantage of our powerful platform.

- **White label**
Your business, your branding. Add value to your brand.
- **Permission Control**
With our powerful permission control you can easily manage who can access what, including your staff and clients.
- **Easy Switching**
Our easy to use setup wizard will guide you through the getting started process.
If you are transferring from any other system we offer data transfer service to make sure all your client data migrated to Easy Accountax and the client account is up to date and ready to use.
Our extensive support and free training make sure all your staff is trained and confident using Easy Accountax.
- **Your clients will love it**
It is beautiful and easy to use. Your clients will love using it. They get real time information about their business finances, create professional invoices, record expenses and much more. CRM module empowers them managing new leads and existing clients. Our online support and knowledgebase makes it easier for your clients to get onboard.
- **GST Return**
Easy is now GST ready. Easily file all your GST returns with one click. As you already have your invoices and bills entered in Easy we will automatically submit them to GST Server.

Free Data Transfer

**Extended Support
(email and phone)**

Free staff training

**No obligation,
cancel anytime**

**Only pay for
active companies**

“Easy is perfect for the small business owners like me who doesn't know a lot about accounting. I just create my invoices, enter my expenses and it automatically manages my books in background. My accountant can have access to my account so I don't need to send all documents to him physically every month.”

Affordable Cloud Accounting For You And Your Clients

HOW Easy Accountax WORKS FOR YOU ?

- **Bulk Reconciliation**

No other software has powerful bulk reconciliation feature as EasyAccountax. This makes reconciliation process so quicker. Our auto bank feed imports bank transactions every day so you don't have to wait till month end to do reconciliation. Just do it as data flows in to make it quicker and keep clients up to date.

- **Secured Cloud Storage**

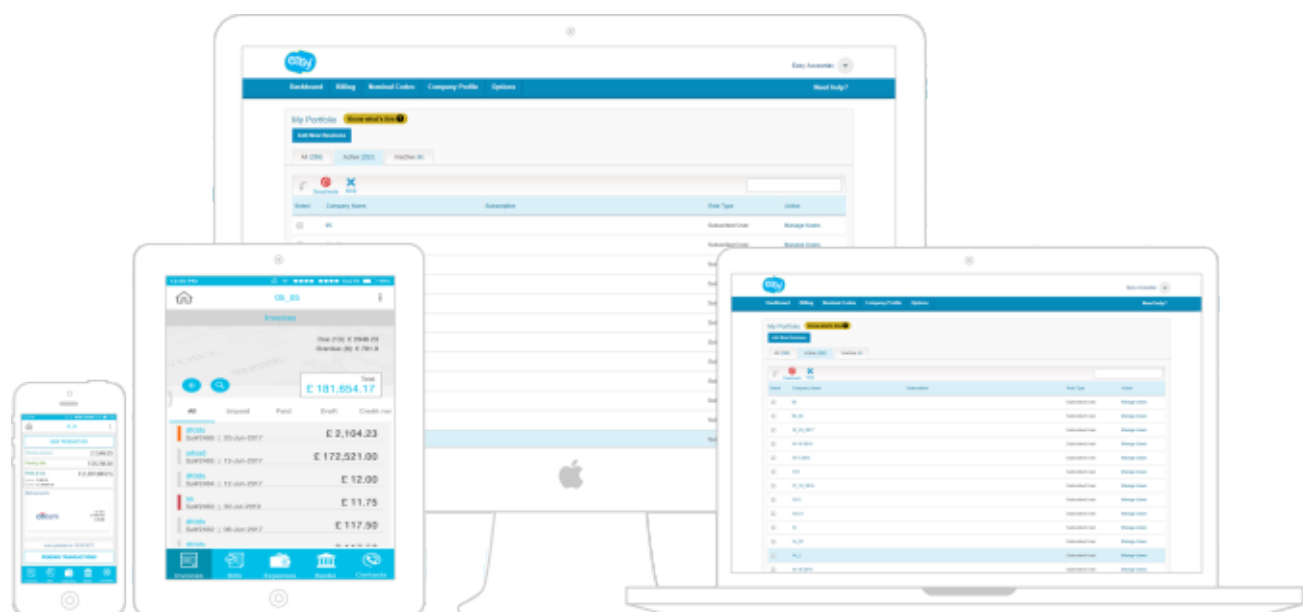

All data is stored in our secured cloud server with multiple backups. We use 256 bit encrypted SSL to secure communication to and from our server. Our server is protected in one of the UK's biggest data centre with hardware and software firewalls in place.

- **Reset points**

Our unique feature lets you create multiple restore points for each company. This enables you to switch company account to any restore point and the company account will be reset to the selected date and time.

- **Additional features**

We are always looking for new ideas about features which are useful to other clients too. We aim to put any idea in development within 3-4 weeks time. We have dedicated developers just working on new suggestions.

HOW MUCH WILL IT COST TO GET ON TO THE CLOUD?

Taking your practice on cloud is no longer an expensive dream. With Easy Accountax it is possible now. We believe in one package. Our pricing is affordable and covers all modules. Our one package for all promises free access to all new features and functionality we develop in future.

Hurry up! Contact us to see how does it look with your own company branding. Sign up now and we will put a cap on your yearly spending. Which means after fix number of active licenses all additional licenses will be totally free. And not only this, we will provide you white label completely free of charge*.

And that is not all, if you sign up before end of May, 2016 we will freeze your subscription price for next 2 years. Contact one of our sales staff to see how much you can save yearly with Easy Accountax compared to other cloud accounting software.

- Free lifetime upgrades
- Anytime Anywhere Access
- Highly Secure Data Storage
- Free Mobile App
- Automatic Data Backups
- Access to Help Center
- No Obligation to Contract
- Free Unlimited Support

*For free white label you need to have minimum 10 active licenses at any time.

"We made it even simpler.
Only **ONE PACKAGE**.
You get access to everything
and including any
additional modules we
develop in future."
