Business Development

With having an experience of more than 10 years we have a team of business development who spend time in getting new clients as well as maintaining communication with our existing clients abroad.

YB
Team

YB has a rich experience team of developers, designers and project managers to facilitate all our client needs and requirements.

Work Process

YoungBrainz

After all the phases we deliver the final product to our client.

Deliver

After designing and development comes the final testing where we make sure the product developed works as per our client requirement.

Testing

At this stage we use our expertise to develop the final product by coding each and every defined module of the project.

Develop

As soon as we are done with the detailed planning we start working on providing the outline to the project by designing each and every module individually.

Design

As soon as we receive a requirement from our client we create a detailed specifications which acts as a blue print for the complete project which has detail steps of getting the final product.

Planning

How We work

Testimonials

YoungBrainz

Will Pitt
YoungBrainz did a excellent job building me a wordpress theme. It was exactly what i asked for and they went the extra mile to ensure my satisfaction.

Byron Robinson
I am satisfied and happy with my work with YoungBrainz. They were easy to reach and very receptacle to last minute changes on my part. Thank you!

Shahzeb Ahmed
Job well done! The contract was completed on time and they were extremely efficient. They know what they are doing. Looking forward to working with them!
Ryan Rawls
Jignesh has been a dream to work with. Far reaching talents with great creative problem solving. He spots the solution to a problem early in discussions, which are always well thought out. In addition, his overall communication is outstanding. We happily and highly recommend him to any business seeking a reliable quality coder.

Sofian
Very happy with the work of the team! They are vey professional! I recommend them to everybody.

Clients

From small to large Mobile and Software Development projects we have done it all. Our team has worked with the start-ups to Fortune 500 companies to execute their projects in different parts of world.
