## The company

Lvivity is the software development company that creates efficient and scalable products based on latest web & mobile technologies for various business industries. A customer-oriented approach is the philosophy our agency operations are built upon.

Regardless of the business size, we are ready to offer you the best solution for your tasks and help you in achieving your goals.

## Who we are

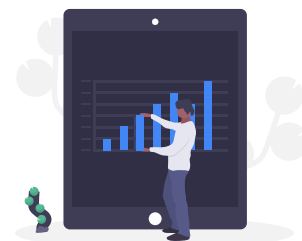

**6 +**

Years of Expertise

**50 +**

Employees

**70 +**

Successful projects

## Culture, principles, atmosphere

Good products can only be created in a friendly and pleasant atmosphere by people having a common vision of how the team should work. Respect for clients and employees is the basis of our culture, the set of principles that underlies Lvivity's work since 2013, when the company was founded.

## What We Do

We have a wide array of services to offer our clients. But we can generally boil all of our services down into one of these 3 general categories:

- Mobile Development
- Web Development
- Desktop Development

- IT needs and risk assessment (IT audit)
- IT project management
- IT outsourcing

## Our Key Technology Stack:

.NET, iOS, Android, Xamarin, Angular, React JS, Node JS and more.

If you still have doubts about which technology is the most suitable for your project development, we are always ready to carry out a detailed analysis and find the best solution for you.

# Some of Our Works

Here is a part of the projects, implemented by our team. We cooperate with different companies and startups to help them create remarkable products.

## Lean-Case

One Business Case Portal for your entire company. Connect your company and customers to create, manage and track the right plans and gain insights.

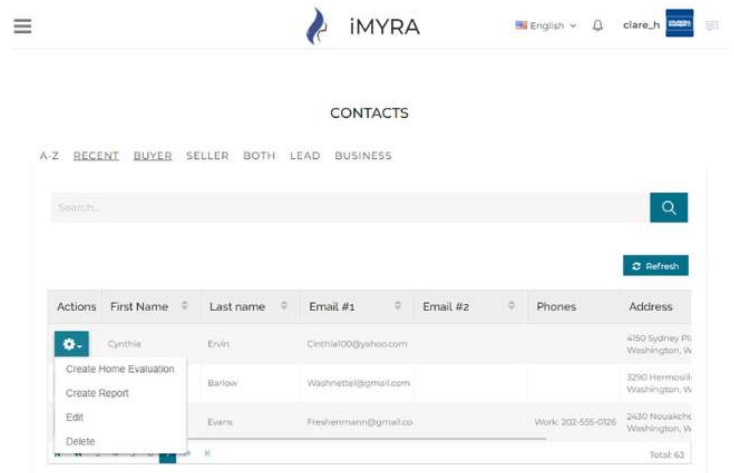

<https://lvivity.com/lean-case>

## IMYRA

The name iMYRA means “I Manage Your Real Estate Activity”. The whole idea behind this project is to make your life easier by combining many of the tasks you use in several separate applications or programs into one location – iMYRA’s capable hands.
